

Service WorkQueue

The left side menu for Fairwater has a menu option called Service WorkQueue. Clicking on this option will open a list view of all Service Items for the Office.

You may open a Port Call by clicking on the Vessel Name (opens in a New Tab).

You can quickly view the Workflow Status of Service Items for all Calls in a single view.

You can open the Line Item Details by clicking on the Sales Amount for a Service Item to quickly make Edits without having to open the Port Call.

Rows highlighted in gray indicate that there has been a Blank Check issued that has not yet been Posted. These need to be posted within the same day as giving the check to the Vendor.
